

**Authorized Software
Solutions Distributor**

Egypt | Saudi Arabia

DIS is an authorized software solutions distributor, established in 2020 to support growing businesses.

We operate across Egypt and Saudi Arabia, delivering licensed and globally trusted software solutions.

Our focus is enabling organizations to optimize operations, enhance productivity, and accelerate digital transformation.

Through strategic partnerships with leading technology providers, DIS helps businesses grow with confidence and long-term reliability.

Egypt | Saudi Arabia

Vision

To become a leading software solutions distributor
in the Middle East.

Empowering organizations with trusted technology
that drives sustainable growth and innovation.

Mission

To deliver licensed and reliable software solutions
that meet the evolving needs of modern businesses.

We aim to build long-term partnerships,
ensuring value, efficiency, and operational excellence.

Egypt | Saudi Arabia

Our Solutions

Technical Support & Consulting

Professional guidance and technical support to help organizations select, deploy, and manage the right software solutions.

Enterprise Software Solutions

Comprehensive software offerings designed to support enterprise operations, scalability, and digital growth.

Licensed Software Distribution

Authorized distribution of globally trusted software solutions, ensuring compliance, security, and reliability for businesses.

Egypt | Saudi Arabia

CADMATE

CADMATE is a professional CAD solution designed for garment pattern making and apparel production workflows.

It enables fashion manufacturers to create accurate patterns, optimize layouts, and improve efficiency across production stages.

Key Features

- Advanced pattern design tools
- Accurate grading and measurement
- Efficient marker making
- Optimized fabric utilization
- Seamless production workflow

Egypt | Saudi Arabia

FOXIT

Smart PDF Solutions for Secure
Document Management and Collabo-
ration

Foxit provides fast, secure, and reliable
PDF solutions for businesses and
professionals.

It enables users to create, edit, sign,
and protect documents while improving
workflow efficiency and collaboration.

Key Features

- Create, edit, and convert PDF files
- Secure document signing and encryption
- Collaboration and annotation tools
- Lightweight and high-performance software
- Enterprise-ready PDF solutions

Egypt | Saudi Arabia

ARCHICAD

BIM Software for Architects and Designers

ARCHICAD is a powerful BIM software designed for architects, engineers, and construction professionals.

It enables teams to design, visualize, and document projects efficiently within a unified BIM workflow, from concept to construction.

Key Features

- Advanced BIM modeling tools
- Integrated 2D & 3D design environment
- Real-time collaboration with BIMcloud
- Accurate documentation and visualization
- Optimized workflows for architectural projects

Egypt | Saudi Arabia

SketchUp

3D Modeling Software for Design
and Visualization

SketchUp is an intuitive 3D modeling software used by architects, designers, and construction professionals.

It enables fast and accurate creation of 3D models, helping users visualize, present, and develop design ideas with ease and flexibility.

Key Features

- Easy-to-use 3D modeling tools
- Fast concept design and visualization
- Extensive 3D Warehouse library
- Compatibility with multiple file formats
- Ideal for architectural and interior design

SketchUp
